The owner/occupier

Dear Sir/Madam

Crossrail – Site Investigation Works

I am writing to let you know that as part of the route development work for the proposed Crossrail railway, contractors will be carrying out site investigation work in your area in the next few weeks.

I felt that as a local resident or business you would appreciate a brief explanation of what this work will involve and how it relates to the project.

On 22 February 2005 the Secretary of State for Transport introduced a hybrid Bill to authorise the Crossrail project. The scheme in the Bill is based on detailed assessments and is judged to offer the most advantageous benefit to cost ratio set against the need to provide a solution to London's transport challenges. The proposal is to link Maidenhead and Heathrow with Shenfield and Abbey Wood through new tunnels under central London. The project will bring major benefits to London and to the UK as a whole through faster journey times and greater accessibility in and around London.

Cross London Rail Links (Crossrail) Ltd, a joint venture company between the Department for Transport and Transport for London, is responsible for developing the proposed railway. This work in Tower Hamlets is part of the next stage of information gathering before detailed design work begins.

The site investigation will involve the drilling of small (150mm diameter) boreholes to examine the soil conditions. The work will take place between 8.00am and 5.30pm on weekdays. The work is being carried out with the approval of the local authorities with whom we have been working closely to minimise the impact of our work on local people. The works will commence 8th May 2006 and will take approximately 3 week's to complete.

The specialist ground investigation contractor FES, working under Thames Waters supervision will be undertaking the work on behalf of Crossrail.

The locations of the 3 boreholes have been carefully selected to minimise disturbance to neighbouring businesses, residences and buildings as far as possible. The locations are as follows:

1. Car Park of McDonalds Bow Restaurant off Payne Road;
2. Wick Lane adjacent to the Manhattan Building;
3. The Network Rail railway embankment adjacent to the Manhattan Building.

Yours faithfully
